Career Summary

Alter App: Full-Stack Developer

Jul 2023 - Present

- Working as a full stack developer on Alter. Sample the Best Cars the World Has to Offer at Your Price Point.
- Developed backend RESTful services with proper swagger documentation using tools & technologies like Nest JS, TypeORM with postgresql DB
- Developed frontend using Next JS, Material UI and integrated backends. Worked on different ORMs including TypeORM, Prisma as well as raw queries.
- Integrated different services including Stripe, Plaid, S3, SendGrid and Twilio.
- I also worked on the admin dashboard

ZUS

Jan 2022 – Jun 2023

Full-Stack Developer

- Züs is a true multi-cloud with no vendor lock-In. Choose the best providers, switch anytime. Züs is decentralized, open source, and high-performance with high-security features such as immutability, encryption, and proxy re-encryption. Züs is ideal for backups, AI, data lakes, and databases.
- The complex task is to communicate with the large team. To handle this conflict, I suggest to use the JIRA board.
- I worked as a Front end developer and managed the project as well,
- Technologies: Next, React, Tailwind CSS

Talabat Menu

Apr 2021– Dec 2021

Frontend Engineer

- It is a menu management platform for restaurants, offering a cost-effective solution to boost their online presence.
- Handled the client side using Next.js.
- Developed intuitive step-by-step wizard for restaurants to easily create and customize their digital menus.
- Utilized Vercel for deployment and BitBucket for version control.

AlayaCare

Sep 2020 – Mar 2021

Frontend Engineer

- Transforming home-based care agencies for growth. Power your agency and empower your team with the cloud-based solution
- I created a custom dashboard and API integration for the different communities to provide meditation. Add data insights for the admin.
- Technologies: React JS, Tailwind CSS dashboard.

Code Geniks

Apr 2020 – Aug 2020

Intern

- Handled the multiple short tasks.
- I worked on React JS, styled components and bootstrap.
- Boosted product performance.
- Worked on team building.
